

High **QUALITY**  
Finest **GRADE**

## About Us

Founded in 1980 by our visionary leader, **Mr. Mahesh Shah**, M/s **Vimal International** embarked on a mission to provide a reliable and best-in-class source of chemicals and solvents. From the very beginning, our founder's clear vision laid the foundation for a company built on trust, quality, and excellence.

The legacy was further strengthened by **Mr. Hemang Shah**, who expanded the company's operations into imports and exports, setting the stage for global reach and diversification. In 2012, **Mr. Kunal Shah** joined the organization, leveraging his strategic expertise and business acumen to broaden the product portfolio. Under the collective leadership of these three visionaries, Vimal Oleo Group has become a distinguished and trusted name in the oleo chemicals industry.

Today, we are recognized as reputed importers, suppliers, and distributors of a comprehensive range of oleo chemicals, serving diverse industries. At Vimal Oleo Group, our unwavering focus is on delivering exceptional customer satisfaction by ensuring superior product quality and on-time delivery.

As a client-centric organization, our primary objective is to exceed customer expectations. By prioritizing quality, innovation, and reliability, we aim to build long-lasting relationships and deliver unparalleled value to our clients.

With multiple warehouses located in Bhiwandi, we ensure timely deliveries and maintain ready stocks to meet the immediate requirements of our customers.

## Our Milestone

1980

Our group company, **M/s. Vimal International**, was founded by **Mr. Mahesh Shah** in 1980. Single-handedly managing both purchases and sales, Mr. Shah embarked on a visionary journey to provide the best-in-class, reliable source of chemicals and solvents. This marked the inception of a long-standing legacy of quality and trust.

Initially, the company focused on the trading and supply of chemicals and solvents such as Titanium Dioxide, Caustic Soda, Iso Propyl Alcohol, and Toluene. Gradually, the product portfolio expanded to include oleo chemicals like Stearic Acid, Refined Glycerine, Distilled Fatty Acids, and Fractionated Fatty Acids. In 1990, we further solidified our position in the market by obtaining the authorized distributorship of M/s. Jocil Ltd (now known as Jayalakshmi Oil & Chemical Industries Ltd).

1990

2004

In 2004, **Mr. Hemang Shah** joined the company after completing his B.Com from Mumbai University. He diversified the company's operations into the imports and exports of oleo chemicals and chemicals, as well as sourcing products from local manufacturers. His primary focus was marketing oleo chemicals, chemicals, and solvents to manufacturers and end-users, and he managed both purchases and sales.

In 2012, **Mr. Kunal Shah**, after completing his B.E. in Computers from Mumbai University, joined the company and expanded the product portfolio to include other oleo chemicals like Lauric Acid, Oleic Acid, Myristic Acid, and more. He also took charge of finance, marketing, and sales, helping drive the company's growth.

2012

2016

In 2016, we took on the authorized distributorship of M/s. 3F Industries Ltd, expanding our product range to include Stearic Acid, Glycerine, DCFA, HTO, and many other products.

In 2021, we launched a new registered partnership firm, M/s. Vimal Oleo Chemicals, which is dedicated exclusively to dealing with oleo chemicals. From our humble beginnings in 1980 till 2021, M/s. **Vimal Oleo Chemicals** has grown to become one of the leading importers, distributors, and suppliers of the entire range of oleo chemicals.

2021

We operate modern, state-of-the-art warehouses for the storage and handling of industrial chemicals and oleo chemicals at Bhiwandi, Thane, strategically located near the JNPT port, ensuring efficient logistics and delivery
